

**DASH IS A CHILD'S FIRST
REAL ROBOT
FRIEND | BUILT TO INSPIRE**

Dash is a real robot, charged and ready to play out of the box. Responding to voice, navigating objects, dancing, and singing, Dash is the robot you always dreamed of having. Use Wonder, Blockly, and other apps to create new behaviors for Dash — doing more with robotics than ever possible. No books or camps needed!

what?

Dash
Dot

Dot is a clever little robot with multiple sensors and a quirky personality that powers the Do-It-Yourself projects in the new Dot Creativity Kit. Kids will learn about robotics and develop fundamental coding and problem-solving skills while having fun. Dot's projects range from crafting and active play to storytelling and construction.

how?

Place the robot on the floor, turn it on and activate Bluetooth on your smartphone or tablet. Open one of Dash's apps, and follow the instructions to set up the robot. The app and the robot use the same language selected in the language settings of your mobile device. Play!

Small but mighty, Dot is Dash's companion, and quite a brainy little robot on its own. Dot comes with several built-in games, such as Magic Dot Ball, Dot of Music, and Light Sword. Using our free apps, Wonder and Blockly, students can create more than 100 games. Plus, with its IR-sensors, Dot can sense and even control Dash!

DASH IS MORE THAN JUST AN ENGAGING PERSONALITY. THERE ARE NO LIMITS TO WHAT YOUR CHILD CAN DO WITH DASH

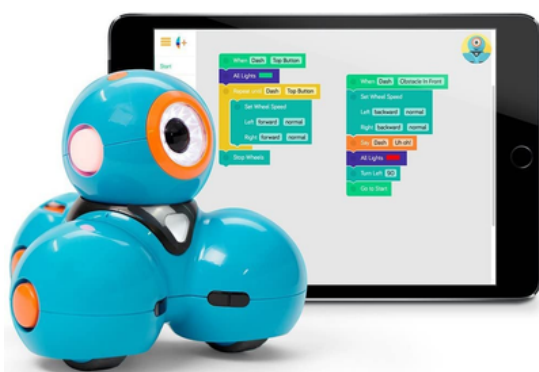

RECOMMENDED FOR AGE 6+
Features and Benefits

Bring coding to life – Kids can watch their virtual coding turn into tangible learning experiences in real-time as Dash, with its performance and multiple sensors, interacts with and responds to its surroundings.

Get ready to roll – A thoughtful design and approachable personality make Dash the perfect companion for both boys and girls, right out of the box -- no assembly (or experience!) necessary.

Gear up for growth – Recognized by parents and educators alike, the award-winning Dash guides kids of all experience levels through a library of in-app challenges to inspire tomorrow's inventors.

Dash

What do you get?

- 1 Dash
- 1 Charging Cord
- 2 Building Brick Connectors
- Getting Started Guide

Launcher for Dash

What do you get?

- 3 projectiles
- 6 stacking targets that can attach to LEGO®-compatible bricks (not included) to build intricate targets.

Launcher is our customer-favorite accessory for the Dash robot. This fun accessory transforms your Dash robot into a projectile-launching machine. Because it's powered by a Dash robot, kids can learn how simple machines like a lever work, and they will also learn about trajectories.

Dot

What do you get?

Introduce robotics to lower grade levels.

- There's a Dot app for every age group, learning level, and play style
- Built-in rechargeable lithium-ion battery
- Bluetooth Smart 4 /LE connectivity

Dot Creativity Kit

What do you get?

- Dot the robot with an attachable stand
- 2 building brick connectors
- 2 plastic to cardboard connectors
- 20 project cards with games & activities
- 10 costumes
- 1 squishy case
- 1 constructible mood lamp
- Over 100 stickers
- Multiple project accessories
- 1 charging cable
- 3 free downloadable mobile apps (Wonder, Blockly, & Go) with dozens of challenges, puzzles, and hours of free play
